

WHO WE ARE

In 1997, the Division of Medicaid issued three very clear, very straightforward charges to HealthSystems of Mississippi (HSM), a private, non-profit company specializing in medical review of health care administered under Medicaid:

- Ensure Medicaid beneficiaries in Mississippi receive the best care possible
- While doing so ensure that Medicaid tax dollars are spent only on necessary and appropriate care
- Educate and provide information to Medicaid providers and beneficiaries about quality health care

Since then, HSM has created Mississippi's most extensive, responsive and quality driven Medicaid medical management program ever. Through both the unwavering challenge and the keen guidance of the Division of Medicaid we have met all three charges and surpassed many specific goals. We've done so by bringing into action dedicated experts, creating a unique and powerful computer, communications and data system, and by relying on the wisdom and compassion of our physicians to review individual cases.

HSM is a Mississippi company headquartered in downtown Jackson. Our staff of experienced physicians, nurses, health care specialists and expert medical data managers work daily with the health care providers of Mississippi to ensure the citizens we serve enjoy the best health and receive the best health care.

MISSION STATEMENT

To improve the quality of health and health care by using information and collaborative relationships to enable change.
